

Brothers,

With our next target date THREE WEEKS away (90% by April 10th) I am thrilled to say that as a Region, we have already surpassed the goal. Like every other Region, we have some Detachments that are absolutely crushing their goals, some that are above average, and some that are struggling ever so slightly.

Here is your opportunity to listen in on how the more successful detachments are getting things done, or to ask questions/voice concerns on what is going on in your home state.

Tonight, March 19th , is the Bi-Monthly Membership Numbers call open to EVERYONE!!

Please make plans to attend.
