

Gentlemen,

Records were meant to be broken, and by the looks of things, the 2023/24 membership year will do just that. Instead of drilling down this week, as there has not been much change, I would rather just jay GREAT JOB thus far, but our mission is far from over. While we are recruiting, retaining and reinstating old members, it's not too early to look towards the future. We are a very short FOUR months from the start of the 2024/25 membership year. The sooner we start thinking about it, the better we will be.

I ask you all to use the two links below as a membership tool. As you can see by the title, they are for the Sons portion of LEGIONTOWN, found under the media tab of The American Legion website. Use the first link to view stories of how the Sons make a difference in their communities, states or across the nation. Use the second link to upload and share YOUR success stories!! Maybe it was a BBQ fundraiser for CWF or a successful membership drive. Whatever it is, share it for all to see!!
