

Arghh ye scurvy dogs!!

The South still be in the lead, but don't be lett'n' your guard down just yet. Aye, the MidWest and Mike Monserud aka Davy Jones are creeping up on our stern. October be gone now and the end of 2024 will be upon us before we know it. Load the cannons, grab your swords, douse them lights and prepare to fight. We are not going to Davy Jones' locker yet. Rattle the cages in the hold of the ship and get those scawolags who have been slacking to pull their weight and swab the deck with their membership dues. Congratulations to Louisiana, we be leading the charge for the south and number 3 in the nation.

Aye don't forget the struggles of our brethren in the hurricane hit areas of the South, be generous and dig deep into your ill gotten booty and your treasure chests and donate to the NEF or local charities that are extending their hands out to help. The krewe from North Carolina has been hit pretty hard from the ravages of that wench Helene but they will carry on. Arghhh don't forget the krewe of Florida they got wacked twice in short order by the wench Helene and that peg legged scurvy dog Milton.

Check the individual recruitment award (IRA) and the membership recruitment pin please look around and see who qualifies for these awards and drive to earn them yourself.

Finally, our next region call will be held on December 10th.

John C. Lawrence

(AKA Admiral Jean Lafitte of the Barataria pirates in south Louisiana)

SAL National Vice Commander Southeastern Region
