

Fellow Sons,

At the Fall National Executive Committee meetings, Media and Communications Commission Chairman Michael Fox asked me to attend the American Legion Commission meeting to seek answers to questions and concerns we had from our meeting. After attending that meeting and a follow-up meeting with National Staff members, I have compiled the following concerns and replies.

1. The Sons mobile App does not seem to be updated on a regular basis.
 - (A) The Sons App is updated by stories that are sent into Legiontown. They are checked for content and grammar and then posted to the App.
 - (B) Does your Squadron have an event coming up you want to highlight? Send in all your information and National Headquarters may send a team to cover your event and feature it in a prominent publication.
2. Problems have been reported when the website is viewed from mobile phones.
 - (A) They are working on a new interface for mobile access to both the Legion and the Sons websites. It is hoped that both will be finished shortly.
3. I thanked them for placing Sons of The American Legion in the header on our website and noted that on the home page all the dropdown menus pertain to our site. However, after leaving the homepage all the dropdown menus go back to the Legion website. I asked if that could be changed so that all the dropdown menus stay on our site on all our pages.
 - (A) They will check into this and try to correct this situation.
4. I also asked how we as Sons could help to keep things more current.
 - (A) Simply send stories and pictures to Legiontown so they can be filtered and sent to the Sons App.

It is now up to you, our members to help keep our Sons App up to date. We're counting on your help.

Yours in Service,

Damon Bradtmueller
Member, Media and Communications Commission
