

USS MIDWEST,

Our 105% target has past and only the Detachment of South Dakota hit the target at 125.143% and 99.14% in renewals. . Oklahoma was very close needing 22 members and Montana also close needing only 29. As a region we 93.048% to goal and 83.21% in renewals. I know with the Covid-19 pandemic our membership has slowed. I know we all did our best to bring in membership. With many Posts closed it created an obstacle. Please keep pushing our 2020 membership, as we begin to focus on 2021 and fight a new battle.

I am sure all Detachments have recieved thier 2021 membership cards. We also know that with the new year or national dues go up from \$2 to \$5. With that many Squadrons most likwly had to raise their dues. This could cause a new issue with renewing membership but keep explaining the benefit of being a member. i have attached the target dates for 2020-2021. please review and send out into your detachment.

For God and Country,

Juan R. Torres
Membership Committeeman-Midwest region
2019-2020
